

Company Profile

“

Flexible Packaging offers ease of storage & transportation, **extended shelf life & versatility in design & branding.**

About us

An overview

“

Nyumba ya Packaging

We manufacture consumer packaging in Uganda. We offer flexible packaging solutions which include various pouching and labeling solutions. Our products are used in several packaging applications, which can also be customized for food and beverages.

We manufacture products that reach every corner of Uganda and we have invested in quality and efficiency to satisfy customer requirements. For quality we have latest technology machines that are used in modern packaging industries and for efficiency we have automatic error detecting solutions that make sure that no substandard product makes its way to finished goods.

Mission

Our mission is to be the go-to flexible packaging partner for all industries in Uganda.

Vision

Our Vision is to pioneer into a complete environmentally friendly flexible packaging industry.

Our Team

We have a highly experienced team divided into several departments:

Management

We have a strong and a highly experienced management team that has worked in the regions of Uganda, Kenya, Rwanda and DR Congo over the past 10 years.

Administration

This team has been hand-picked and trained by the management personally for over four years to execute flawless work at any given time.

Production

With over 25 years of experience in this field, this team is capable of meeting your needs as well as giving valuable feedback on cost reduction, quality etc.

- o Pouching Solutions

Flexible Packaging

- o Biscuit packages
- o Confectionery packages
- o Sugar packages
- o Spices packages
- o Soap and detergent packages
- o And many more

Production Capacity

At HRP Packaging, we have invested in state-of-the-art machines that enable us to meet our clients' needs efficiently and on time.

Our production capacity ranges from 250 to 300 metric tons per month. This capability allows us to cater to the growing demands of our clients and maintain a seamless supply chain.

Health and Safety Standards

We envision becoming one of the leading packaging companies in Uganda, and to achieve this goal, we prioritize the health and safety of our employees and stakeholders. We have implemented robust health and safety standards within our facilities, including the provision of fall protection systems, measures to prevent exposure to harmful substances, and the availability of safety equipment for all employees. Additionally, we continuously train our staff to ensure they are well-equipped with the knowledge and skills to work safely and efficiently.

A person wearing a white lab coat and a white hairnet is shown in profile, holding a clipboard. The background is a blurred industrial setting, likely a factory or manufacturing plant. The overall color scheme is monochromatic, with shades of blue and white.

Environmental Commitment

As a responsible packaging manufacturer, we recognize our role in protecting the environment. We are committed to minimizing production waste through efficient processes and responsible material usage. Our products are designed with recyclability in mind, reducing the environmental impact of our packaging solutions. Furthermore, we maintain an eco-friendly atmosphere within our facilities, incorporating sustainable practices wherever possible.

OUR PRODUCTS

Flexible Packaging Film

Our Flexible Packaging Films encompass a wide range of options, including Printed Laminated Film with Aluminum Foils and High Barrier Laminates with Aluminum Foil. These films serve as the foundation for our packaging solutions, offering durability, protection, and branding opportunities. Our films are meticulously produced using modern machinery and optimal raw materials, adhering to industry standards. With varying finishes and barrier properties, our Flexible Packaging Films ensure your products are not only visually appealing but also well-preserved.

Centre Seal Pouch

Our Centre Seal Pouches are versatile packaging solutions known for their ability to withstand temperature variations and maintain product freshness. Ideal for packaging powders, solids, and pastes up to 10 kg, these pouches offer convenience and reliability. The centre seal ensures the contents are securely enclosed, while options like round punches on the top seal make them easy to hang. With customizable dimensions and printing options, our Centre Seal Pouches cater to diverse packaging needs.

Self-Adhesive Label

Our Self-Adhesive Labels are crafted to enhance product identification and brand recognition. These labels offer a convenient and versatile solution for labeling various items, from packaged foods to household products. Designed for easy application, our labels adhere firmly to different surfaces, ensuring they remain intact throughout the product's lifecycle. With customizable designs and printing options, our Self-Adhesive Labels contribute to a professional and aesthetically pleasing presentation.

Shrink Film

Our Shrink Films are engineered to provide exceptional packaging integrity and tamper resistance. These films conform tightly to the shape of the product when heat is applied, creating a snug and protective layer. Whether it's for bundling products together or providing a transparent covering for retail display, our Shrink Films guarantee product visibility while safeguarding against environmental elements. Available in various sizes and thicknesses, our Shrink Films can be customized to fit your specific needs.

Wrap Around Labels

Wrap around labels are mainly used on plastic containers, but they can be applied to any kind of container. One of the advantages of using them is that the PET bottle recycling is much easier because it does not require a label detachment. Unlike most self-adhesive labels, the wrap around labels are applied to the entire circumference of the container, offering the possibility of a 360° design. Therefore, you benefit from a larger area to promote the story of your brand. Whether you choose to print on a white, metallic or transparent material, the wrap around labels guarantee both a higher quality and a much easier recognition of your product. Wrap around labels have a lower cost of production compared to self-adhesive labels and allow higher labeling speeds. Our experience, the state-of-the-art equipment, as well as the quality of the colors, helps us provide efficient solutions, whatever your request.

Clientele

Flexible Packaging is the Future.
